SUMMARY

I am highly motivated and face challenges head-on, using logical intellect to solve them without hesitation. I work collaboratively with my team and prefer to maintain a balanced approach to time management. I aim to learn new technologies and contribute fully to the company. I am a dedicated team player with excellent communication skills.

EXPERIENCE

Associate Software Engineer

Merchant Bank of Sri Lanka & Finance PLC

- 02/2024 - Present 28 St Michaels Rd, Colombo 03
- I design and develop web applications using Java and Angular.
- I developed the frontend of an Inventory Management System using Angular 16.
- Implemented a new application feature that was adopted by 80% of the user base within the first three months of release.
- Participated in code reviews and paired programming, resulting in a 30% reduction of code defects.
- Technology Stack: Angular, Typescript, HTML, SCSS, VS Code, MySQL, Postman, GitHub, MySQL Workbench
